Smart Products Worldwide, LLC On Display for Presidential Technology Review

It's a Big F'n Deal!

Chandler, AZ— March 20th 2024 — Today at Intel's Ocotillo Site President Joe Biden announced a multibillion-dollar award to expand its chip production in the US. During the visit Mr. Biden toured the site where Intel showed off some of its top innovations which included 3 tools designed and manufactured in Tempe, Arizona, by Smart Products Worldwide, LLC. CEO Walter Balfour added “we are extremely proud to be a part of this exciting moment!”

Many Intel Employees have benefited from Smart Product Worldwide tools that are currently in use at the Intel site. From Height Adjustable Lab/Fab Carts (photo below) and Step Platforms to Equipment Safety Pins, which is one of SPWW most recent innovation that has been made available to Intel sites worldwide.

Smart Products Worldwide, is a Design, Development and Prototype Company, committed to deploying custom innovative tools for companies like Intel. “We also offer a wide variety of services in one single location here in Tempe, Arizona” added CEO Walter Balfour.

Founded in 2017, Smart Products Worldwide is the leading product design and development company in Arizona. The company offers a wide range of products and services designed to improve safety and ergonomics to fabricating custom precision hardware and fixtures, and much more.
